

Lesson 1: The Geography of Greece

The Greek civilization developed in a mountainous region nearly surrounded by seas.

Directions: Fill in the organizer below with facts about ancient Greece. Then answer the questions that follow. You may use your textbook.

1. What did the Minoan civilization trade with other islands?

2. What made Mycenae so well protected?

Notes for Home: Your child learned how the geography of ancient Greece affected its people.

Home Activity: With your child, brainstorm how life in your town might be different if tall mountains kept you isolated from all surrounding cities.
